

F-SERIES Aqueous Parts Washers

A Heavy Duty Machine Built
with Commercial Customers in Mind

JRI systems are automatic - eliminating the need to manually clean parts with an old scrub tub, pressure washer or potential harmful solvent units. In many cases a JRI automatic washer can pay for itself in less than one year in labor savings.

Sprocket Driven Turntable

JRI's proven sprocket driven turntables eliminate chains, belts, or tire drives that can stretch or slip resulting in poor cleaning performance, increased maintenances and component replacement.

Integrated Debris Tray

This convenient lift out design is easy to clean and keeps debris out of the tank, pump, and nozzles for a cleaner tank and longer solution life.

Space Saver Design

Allows for placement flush against the wall to save valuable floor space.

Swing Down Spray Bar

The swing down spray bar reduces the distance from the part to the nozzle for better impingement on smaller parts providing faster more efficient cleaning.

F-SERIES

Commercial Parts Washers

Roll in door allows easy loading from front and overhead

Controls - Wired in accordance with NFPA/UL73 in regard to:

- Color coded wiring
- Size of wire
- Overload protection
- Illuminated rocker switches

To compliment JRI's space saver design, the roll in door doesn't take up additional space

F-Series comes standard with:

- Precision V-Jet nozzles
- Mechanical door seals
- Gear Driven Turntable with fused jam protection
- Forklift access for ease of movement
- Vertical pump
- Wheel Oil Skimmer
- 60 minute wash timer
- Swing down spray bar
- Integrated debris tray
- Low water shut-off system
- Overfill drain

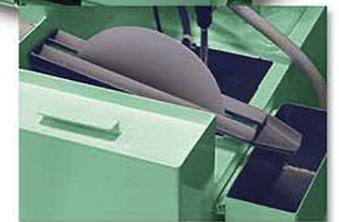

V-Jet Nozzle

Optional Equipment:

- Single or Dual Channel 7 day programmable timer for heat and/or oil skimmer
- Auto water fill to maintain solution level
- Parts Baskets
- Hydro spray detail wand - utilizes customer supplied shop air to propel heated solution through a hand held wand
- Steam exhaust fan
- Casters
- Bag filter system
- Low Amp

Vertical Pump

Stainless Steel Oil Skimmer Standard with Removable Used Oil Container

Models Available	Turntable Dia	Working Height	Weight Capacity	Solution Capacity	Pump	Heat
F-2532	25	32	1000lbs	120 Gal	3 HP Vertical	9KW
F-3142	31	42	1000lbs	140 Gal	3 HP Vertical	12KW
F-3648	36	48	1500lbs	170 Gal	5 HP Vertical	18KW
F-4260	42	60	1500lbs	250 Gal	7.5 HP Vertical	18KW
